VISION:

Our vision is to make men better, because when men are better everyone is better.

PURPOSE:

Disciple and develop men to lead with conviction.

PROCESS:

Resolute is a full-scale game plan (process) for men. Men are a part of a one-year weekly 90-minute group process. These are purposeful roundtable discussions with other men. The groups are hosted by an onsite leader (you) and led by streaming video with discussion handouts. The 90-minutes include opener breakout discussions in pairs, guided inductive bible study, and challenges to apply the lesson into everyday life. During the year men will tackle major topic sections that fall under the heading of discipleship and leadership. All topics headings and lesson can be found on the website under Main Content.
